- **Running NextCraft Solution** (nextcraftsolution.site), a freelancing agency handling diverse projects.

EDUCATION

BE(Information technology), PCCE 2021 – present

Maintained a CGPA of 8.486 in 7th Sem
Currently in 4th year

HSSC, Deepvihar higher secondary school 2019 – 2021

Percentage:66
Won multiple awards in project making competation
Active member of science club

SSC, Vidya mandir secondary school 2009 – 2019

percentage:70%
Leader of chess team for 2 year
Active member of science club

CERTIFICATES

Career Essentials in GitHub Professional Certificate , Full Stack Web Development with Flask , Flutter Essential Training: Build for Multiple Platforms , Node.js Essential Training: Web Servers, Tests, and Deployment

SKILLS

Programming Languages: (Kotlin, Java, C, C++, HTML, | CSS3, JavaScript, SQL, Python,typescript), **Web Development:** (Bootstrap, Django, Flask, Node.js,react,nextjs,tailwind css), **Mobile App Development:** (Flutter,react native), **Cloud Computing:** (AWS (Amazon Web Services)), **Database Management:** (mysql,mongodb,sqlite,oracle)

PROJECTS

Medilens (Flask,Flutter), Hackathon

- Developed **Medilens**, a **Flutter** and **Flask**-based mobile app for **medicine identification and information retrieval**.
- Users can **photograph medicines** to get details on **side effects, uses, and other relevant information**.
- **Fine-tuned Gemini** was used to fetch accurate **side effects, uses, and other relevant medicine details**.
- Showcased expertise in **cross-platform mobile development** and **backend integration** for a seamless user experience.

DataDashBot for Ecommerce & MediMentor for Healthcare, Won 2nd place

- Developed AI chatbots: **DataDashBot** for E-commerce and **MediMentor** for Healthcare during a hackathon.
- Played a key role in **design and implementation**, enhancing **customer engagement** and **healthcare delivery**.
- Utilized a **fine-tuned GPT model** and directly integrated its **API** for chatbot functionalities.
- Secured **2nd place**, demonstrating **innovation, technical excellence, and problem-solving skills**.

Fake News Detection In Social Media(Flutter,Flask), 24 Hours hackathon

- Secured **2nd place at GEC Hackathon** with the "Fab-Four" team.
- Developed an Android Fact-Checking App using **Flutter, Flask**, and **machine learning**.
- Recognized for innovation and effectiveness under pressure.

BSRTC (Bihar State Road Transport Corporation) project, Freelancing Project

- Developed **BSRTC Bus Booking Platform** using the **MERN stack** for online ticket booking.
- Built a **customizable admin panel** for managing routes, schedules, and bookings.
- Successfully deployed a **live system**, ensuring a seamless booking experience.

SLTC Product Distribution Website and App (Django, SQLite,Flutter), Freelancing Project

- **Built a product distribution mobile application** with a Django backend, SQLite database, and Flutter frontend.
- **Enabled seamless browsing and ordering** for shopkeepers, with direct order input for salesmen.
- **Implemented efficient data management** and a user-friendly UI for smooth operations.
- **Demonstrated full-stack development expertise** across backend, database, and mobile frontend.

The Digital Front project, Freelancing Project

- Developed **The Digital Front**, a responsive website for a digital solutions agency using **Next.js**.
- Integrated **services, portfolio, and client testimonials** for a seamless user experience.
- Built from scratch, incorporating **user feedback** to enhance the agency's online presence.

Social Media Monitoring Software, 48 hours Hackathon

- **Developed a social media monitoring solution** during a **48-hour hackathon by Goa Police**, using **Electron, React.js, and Flask**.
- Created **web scrapers for Instagram, Twitter, and Facebook**, identifying and flagging inappropriate content in real-time.
- The project was **recognized for its innovation and impact**, showcasing technical expertise in addressing societal challenges.
